

2nd Australian Cancer and Metabolism Meeting

15th - 17th May 2017

Venue: Victorian Comprehensive Cancer Centre, Melbourne

Metabolic reprogramming is now recognised as a critical aberration facilitating the growth and proliferation of many cancers. This meeting will engage a diverse group of scientists with expertise in nutrient metabolism, cancer biology, signal transduction and network modelling to explore and discuss the latest developments in metabolic regulation of cancer.

Confirmed Invited Speakers

Plenary:

A/Prof Ralph Deberardinis

UT Southwestern Medical Centre

Dr Kristen Brown

Peter MacCallum Cancer Centre

Dr Andrew Cox

Peter MacCallum Cancer Centre

A/Prof Jeff Holst

Centenary Institute

Dr Andrew Hoy

University of Sydney
